Homeowner rehabilitation assistance programs overview

Homeowner rehabilitation assistance programs provide funds to income-eligible owner-occupants to assist with the repair, rehabilitation, or reconstruction of their homes.

The goal of these programs is to allow homeowners who might not otherwise be able to afford necessary repairs to maintain a safe and healthy living environment. Owners can use these funds to repair the roof and floor, bring a property up to code, address electricity or plumbing issues, or make upgrades that enhance the home's energy efficiency or accessibility.

These programs can help prevent the displacement of low-income households who otherwise may struggle to keep their home in livable condition.
